WEEK of WAITING ON GOD

PRAYER PROMPTS

It's Day 4 of our Week of Waiting on God! Today we focus our prayers beyond the walls of our church, to our community and the world! When Jesus saw the needs of others, he was moved to compassion and took action. In fact, Jesus' compassion always led to action, whether healing, feeding, providing, or calling others to serve! As we begin our day, let's pray, "God, break my hearts for what breaks yours!" And then, let's look for opportunities to respond with compassion to serve the needs of others around us.

We'd love to hear what God does through you, as you make yourself available to be used by Him today!

Local Outreach

It's so encouraging to be part of a church that is so committed to unleashing compassion throughout our community. Whether it's serving the homeless, in partnership with the Gathering Inn or sharing the good news to the women of St. John's Shelter, each week our Bayside family is giving of their time, talent and treasure in order to serve those in need. On this Day 4 of our Week of Waiting on God, would you take some time to pray for our local ministry partners and volunteers who serve with them. And if you feel led to respond with compassion, like Jesus did, visit our Local Outreach page to find out how you can get involved.

Global Outreach

After learning about the issue of sex trafficking in Cambodia, Don Brewster and his wife Bridgette sold their home, gave up his position as Executive Pastor of Adventure Christian Church and moved to Cambodia to lead Agape International Missions (AIM). Since 2005, Agape International Missions has been focused on stopping the cycle of sex trafficking and exploitation in Cambodia by preventing human trafficking and rescuing, restoring, and reintegrating survivors.

As one of our global partners, would you join our team in praying for a continued sense of urgency in the fight against sex trafficking. Specifically, would you pray for the completion of their new school, which will provide a safe place for rescued girls to heal and flourish in their education.
